PSC Schedules Hearing in Docket Pertaining to Dominion Energy South Carolina Church Creek-Charleston Transmission Line

Columbia, South Carolina—The Public Service Commission of South Carolina ("PSC") has scheduled a hearing in [Docket No. 2024-81-E](#), which involves the application of Dominion Energy South Carolina, Inc. ("the Company") for a certificate of environmental compatibility and public convenience and necessity for the construction and operation of the Church Creek - Charleston Transmission 230 kV line and associated facilities. This hearing will be held on Thursday, June 6th at 10 a.m. at the Public Service Commission's Hearing Room (101 Executive Center Dr., Columbia, SC 29210). This hearing will be livestreamed to the public [at this link](#).

Dominion Energy South Carolina, Inc. is seeking this certificate as the Company has concluded that continued residential, commercial, and industrial development in Charleston County will soon exceed the electrical load service capabilities of the distribution and transmission system in the Charleston area unless upgrades are made. Areas affected by this project are Charleston County, the city of Charleston, and the city of North Charleston.

More information about the Company's request can be found in the Notice of Filing and Public Hearing [at this link](#). The complete Docket can be found [at this link](#). For more information, please reach out to the Commission at 803.896.5100 or at contact@psc.sc.gov.
